ABOUT US

+62 811 700 5530

PT. BOYO TEKNIK MESIN

PT. Boyo Teknik Mesin keeps moving on together with you for a more prosperous future. PT. Boyo Teknik Mesin is established in Batam in 2021. Presently, we are representing a very comprehensive range of quality machineries from Japan and Taiwan. Working hand in hand with our manufacturers, we look forward to achieve our vision. We offer high quality products and reliable services. We put our customer first and our success is a result of that.

Customers needs, after sales services and advise are part of our standard operating procedures. Our experienced staffs are available to attend to customers' problems and ensure that customers achieve the maximum potential from the equipment they purchase. Our support goes way beyond the point of sale. No matter what machine a customer buy, we strive to provide after sales services and spare parts efficiently. Boyo Teknik Mesin carries a wide and diverse range of spares for all of our most popular machines.

If we don't have the parts, we'll try our best to get it for you in the shortest possible time. This is what Customer Oriented Service means to us and our people. We end eavour to maintain an unblemished track record unrivalled by our peers and welcomed by our customers. If you are looking for reliability products, we are the best choice.

Our Vision

To provide the best customer services, deliver honest and quality service and provide high value - added equipment.

Our Mission

Become the number one destination for engineering solutions.
